

Please keep the Indiana Telephone Privacy Law in place. I do not want my privacy invaded by vendors trying to sell something. I do not want my private personal time interrupted by people I don't know or care about. You need to consider the elderly trying to get to the phone in time thinking it is a friend or family member only to find out it is a salesman. Or how about the mother or father that has worked all day and sits down to help the children with homework. The baby is asleep and now the phone rings.....a salesman. Whats more important, peoples personal private lives or a salesmans pitch?
